LIFTING PROFESSIONALS

## 4 POST LIFTS

# C443

Type	Ref.	Min	kg			
Flat platform	13381	135 mm	4Tn	1150 Kg.	230-400V/3ph/50Hz/3kW 230V/1ph/50Hz/2,2kW	40"

NEW

SPORT ramps available  
Ref. 33730 - 1800 mm

### Security indicator

**Indicator** that prevents a bad levelling, and ensures that the cylinder works within the best conditions assuring a **longer lasting life**.

### Hydraulic cylinders

produced and tested one by one in our factory. The cylinders count with the **security valves** that detects any lack of oil, closing the circuit and preventing the lift from the descending.

### Our platforms are built with:

Reinforced super structure by double T steel beams for intensive use, keeping the platform flat/straight over the years.

### Security x2

Double security system in each post:

- **Mechanical** (safety bars)
- **Pneumatic** (security ladders)

Ensures a better reliability than the electromagnetic security system.

### Minimal height

Our platforms descend almost to the ground level avoiding the use of bulky run-up ramps to allow sport cars to go in (and consequently, using less garage area).

**The lowest on the market!**

H. Min. 135 mm

### Repairable during at least 10 years.

We ensure spare parts availability during at least this period.

2006/42/CE & EN - 1493:2011  
European Directives  
& Approved Standards
